

School Annual Report 2025-26

I take immense pride in presenting the annual report for the academic year 2025-26.

I would like to begin by remembering our founder, Late Dr. K.C John sir. His vision and values continue to inspire us every day. Our school's motto, "Study to show thyself approved," honours his legacy and guides us in preparing students for a bright future. With the strong support of our management and the dedication of our qualified and passionate teachers, our school is steadily progressing in all areas.

Academics

This year, academically our students have yet again made us proud with their outstanding achievements. — I am delighted to announce that we maintained our tradition of 100% results in both Grade 10 and Grade 12. Our top-performing students, Payal Sharma, Sakshi Sharma, Komal Sharma, Muskan Sharma and Somya Sharma were recognized in a special ceremony to honour their hard work. This success is a testament to their effort and the guidance of our teachers.

We also celebrated the achievements of our Foundational Stage, Preparatory Stage, Middle Stage and Secondary Stage as they did exceptionally well both in academics and co-curricular activities.

We successfully organised an Academic Zest Fest- Brainwave 2.0 within the campus where the student showcased their learning and talent wonderfully.

Parents Orientation Program

At Fellowship Mission School, we believe that the key to a child's overall development lies in the partnership between the school and the parents. In this regard, we ensure that parents are actively involved in the academic journey and co-curricular activities of their children. To foster this collaboration, we organize a comprehensive Parents Orientation Program at the beginning of each academic year.

Career counselling: -

Education, for us, is about more than just grades; it's about preparing our students for life. We organised a career counselling program for students from Grades 9 to 12, inviting professionals from diverse fields to campus. Through this program, students had a unique opportunity to explore various career paths and job opportunities.

CO-CURRICULARS

Co-curricular activities are equally important in shaping well-rounded individuals. This year, we organised a lot of art-integrated activities, that let students explore the diverse traditions, languages, and customs of India, making them appreciate our country's rich heritage. We had a successful Summer Camp and Winter Carnival within the school campus. We also arranged a picnic for the students of our Preparatory, Middle, Secondary and Higher Secondary Stages to The Brahma's Water Park, Pushkar which was extremely refreshing for them and also enhanced their friendship and bond with each other. We celebrated Mother's Day, Teacher's Day, Farewell Ceremony, Inter House Dance Competition as well.

We also observed major festivals and national events on campus like Raksha Bandhan, Independence Day, Dussehra, Special assembly on Janmashtami, Christmas, Army Day, Republic Day etc, celebrating each one in a unique way through activities or performances. These experiences broaden our students' culture, perspectives and skills, helping them grow into confident and dynamic individuals.

Kindergarten Co-Curricular Activities

At our Foundational Stage, we focus on shaping young minds to be kind, responsible, and healthy individuals right from the start. Some of the activities were Finger Painting, Monsoon Party, Yellow Day, Red Day, Market Place Activity, Picnic to Let's go Fun Park, Graduation Day etc.

Sports

Along with academics and co-curriculars, physical health is also important for overall success, and we at FMS believe in nurturing both mind and body. We hosted our John's Memorial Inter School Volleyball Tournament in the month of July. Our students participated in CBSE Cluster and won gold and silver. We had successfully organised Junior Sports Meet as well.

Interschool competitions: -

Beyond academics, our students have also excelled in various inter-school competitions. Whether it was art, drawing, debates, or science-related events, they have shown their brilliance in every area.

Clean Classroom Initiative

We started the Clean Classroom Initiative to encourage students to take responsibility for keeping their surroundings clean. Through this, students learn the importance of a clean environment and are motivated to maintain it.

AWARENESS PROGRAMS

At FMS, we focus on raising awareness about important social issues. Last year, we oriented Free Medical and Dental Camp to stay safe and take preventive measures on health and dental issues. Additionally, our students actively participated in various initiatives like the Fireless Deepavali, Fireless Cooking, Tree Plantation Drive and Nutritional Week promoting health awareness, eco-friendly practices and environmental conservation.

Conclusion:

Each of these achievements and initiatives is a step forward in our mission to nurture our students in the right way. Our journey last year has been full of growth, success, and dedication, A special highlight has been the expansion of our infrastructure with the addition of new class rooms, which will serve our higher secondary Grade 11 and 12th classes. and none of this would have been possible without the support of management, the hard work of our teachers, and the enthusiasm of our students.

My sincere thanks to all the parents and each and every one of our well-wishers who have supported us through the years, in every step of our journey.

Thank you.
